29 September. No flying was observed.

30 September. Individual Yak-11s made cross-country flights.

1 to 4 October. No flying was observed.

5 October. Between 1050 and 1700, elements of two Yak-11s made cross-country flights. Between 1315 and 1400, the following detailed observations were made from the northeastern edge of the field: An element of two Yak-11s made a local flight at an altitude of about 200 meters and subsequently headed toward the west. After 18 minutes the aircraft returned, broke off formation and landed individual at an interval of about 200 meters. Subsequently they taxied back to the take off point. At 1340, a formation of four Yak-11s crossed over the field at an altitude of about 500 meters. At that time, no aircraft were seen at the take-off point. An estimated total of 10 Yak-11s was stationed at the field.
